Re: VibraSpectrum distribution rights

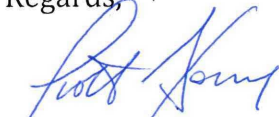

To whom it may concern;

This will confirm that "VibraSpectrum", with address of 35 Usacheva st., 119048, Moscow, Russia is currently an authorized distributor for PCB Load & Torque, Inc., Depew, New York ("PCB LT"). The distribution rights cover the load and torque products as well as products from the RS Technologies division of PCB LT within the territory of Russia.

The only exception is that VibraSpectrum does not have any distribution rights to promote the Dual Bridge Load Cell products offered by PCBLT.

Please feel free to contact me at 716-684-0002, ext 2289 or Scorrie@pcb.com if you have any questions or need anything further.

Regards,

Scott G Corrie

Export Control and Contracts Manager

PCB Piezotronics, Inc.

Depew, New York
