Re: OOO VibraSpectrum distribution rights

To whom it may concern;

This will confirm that OOO "VibraSpectrum", with address of Kosinov Str. 7, 111538 Moscow Russia and Usacheva Str. 35, Moscow Russia, is currently an authorized distributor for the sale of Test and Measurement and Industrial products of PCB Piezotronics, Inc., Depew, New York. Distribution rights are for the territory of Russia.

The only exception is that VibraSpectrum does not have any distribution rights with respect to the sale of products of PCB's Larson Davis Division.

Please feel free to contact me at 716-684-0002, ext 2289 or Scorrie@pcb.com if you have any questions or need anything further.
